## About Stroke Comeback Center

The Stroke Comeback Center is a community-based nonprofit organization located in Vienna, Virginia. The Center is the only nonprofit in the area that provides programs for stroke and brain trauma survivors on a long-term basis. We provide a place of hope for all those who no longer have insurance to cover therapy costs. Through private donations and special fundraising events, the Stroke Comeback Center can continue to provide programs and support for persons from all income levels regardless of ability to pay. With your support, our survivors will always have a wonderful place to grow, rebuild skills and reclaim their lives.
