

This week at the Center:

We focused on pronouns. Paired words like *he* and *she* can be very difficult and are often mixed up. Mixing up pronouns causes confusion for the listener and it's very frustrating for the survivor.

What's right for you?

Finding a language task that is at the right difficulty level & is interesting is the key! Don't get bogged down in where the tasks you pick falls in the task order of complexity. The tasks listed first are the most complex progressing to less complex. The Intersection is available to everyone at the Center so it covers a wide range of abilities. Pick what works for you today!!

A word about the name:

The Intersection is where home meets the Center. So many wonder what happens behind closed doors or how do I help at home. Check out the Intersection for ways to keep using your language at home and keep moving on your road to recovery.

Supported Conversation:

We all need help! Many members at the Center benefit from their conversational partner giving them some help. This means always encourage use of gestures, or use of a communication book, have paper nearby for writing or drawing, and give choices. When you don't understand, say so!
