### About Stroke Comeback Center:

Stroke Comeback Center (SCC) is a 501(c)(3) community-based nonprofit organization. With our physical centers in Vienna, Rockville, and our Virtual Stroke Comeback Center, the SCC is the only nonprofit in the greater Washington, DC area that provides programs for stroke and brain trauma survivors on a long-term basis. We provide a place of hope for all those who wish to continue their recoveries beyond the limitations of insurance companies and traditional rehabilitation services. Through private donations and special fundraising events, Stroke Comeback Center is able to provide meaningful programs for survivors from all income levels, regardless of ability to pay. With your support, our survivors will always have a wonderful place to grow, rebuild skills and reclaim their lives.
