

**THRIVING
WITH APHASIA**
Celebration

When a stroke or brain trauma causes aphasia, life can come to a sudden halt. Aphasia can impact all aspects of language - talking, listening, reading, and writing - but it does not impair intelligence.

Survivors at Stroke Comeback Center know that this isn't a time to retreat, but an opportunity to find a new path forward. With determination and support, our survivors find new ways to live full and productive lives. They don't just survive - they **thrive**.

Stroke Comeback Center invites you to our 2026 *Thriving with Aphasia* celebration. Join us as we enjoy live music, savor tasty treats and drinks, and celebrate the many ways our members **thrive** with aphasia.
